

Glassfile Textures

Eska

Glassfile texture	• Eska
Pattern	• Basic organic design
Maximum panel size	• 53" wide x 108" high (call for oversized panels)

For safety reasons, a maximum weight of 250lbs per individual panel will apply. Panels exceeding 250lbs will require review and approval prior to fabrication.

Thickness available	• 1/4" (6 mm) 3.27 lb/sq.ft • 3/8" (10 mm) 4.90 lb/sq.ft • 1/2" (12 mm) 6.64 lb/sq.ft • 5/8" (15 mm) 8.17 lb/sq.ft • 3/4" (19 mm) 9.81 lb/sq.ft
---------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------

Natural color	• Clear float glass • Low iron glass – special request (virtually eliminates the green cast inherent in standard clear float glass)
---------------	----------------------------------------------------------------------------------------------------------------------------------------

Panel finish options	• All stock colors (transparent, frosted or sfumato) • Custom colors (transparent, frosted, opaque, or sfumato) • Sandblast (10–100% frosted) • Transition - note: maximum panel width: 46" (1168 mm)
----------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Safety treatment	• Temper • Laminate • Temper and laminate
------------------	-------------------------------------------------

Design options	• Curve – Bend • Shape – Cut • Drill • Notch • Slump • Carve • Carve and clarify
----------------	----------------------------------------------------------------------------------------------------

Edge finish options	• Kiln polish (unless otherwise specified) • Flat machine polish • Arriss
---------------------	---------------------------------------------------------------------------------
