67. Arc-Com Fabrics

Space No. 1155

The Arc-Com Design Studio has two new patterns: Lily Pond and Wind Chime. The graceful stylized designs combine high performance with elegant design. Circle No. 267

68. Nucraft Space No. 1166

The Saber Training Table is a workhorse environment piece. It comes with the option of stationary, nesting, or folding legs, and contains innovative wire management and cable access. Circle No. 268

69

69. izzydesign Space No. 1150

The Rylee table—for educational, training, cafe, or conference purposes—comes with a range of size, shape, and edge options, and several base styles. Circle No. 269

70. Joel Berman Glass Studios

Space No. 1173

The kiln cast glass Building Materials Collection is made with a newly developed modular mold system with a selection of texture components. That means clients and designers can now have a hand in creating a custom glass design suitable for a variety of applications. Circle No. 270
