JOEL BERMAN GLASS STUDIOS LTD

PRESS RELEASE | MAY 20, 2009

**INTRODUCING BERMAN RESIN: A SELECTION OF JOEL BERMAN GLASS STUDIOS' SIGNATURE CAST GLASS TEXTURES AND TWO EXCITING NEW TEXTURE DESIGNS NOW AVAILABLE IN RESIN**

Joel Berman Glass Studios proudly presents *Berman Resin*, a selection of the studio's signature kiln-cast glass texture designs together with two new designs now available for the first time in resin.

Five of the studio's existing texture designs from its collections are currently available, with two new textures offered:

From Joel Berman Glass Studios' collections:

- |             |            |
|-------------|------------|
| 1. viaggio  | 4. bastoni |
| 2. onda     | 5. nu'veau |
| 3. arrigado |            |

New texture designs:

1. tanami
2. raggio

Resin has advantages over glass in certain applications, particularly where weight is a consideration, or where nonstandard material thickness is desired. Unlike glass, resin does not require tempering for safety purposes, and can be fabricated on-site including cutting, drilling holes and other fabrication requirements using common tools.

Berman Resin is available in acrylic and PETG in panels up to 96in high x 48in wide in standard thicknesses of 1/4in, 3/8in, and 1/2in. Thicknesses from 3/4in to 2in are available on a custom order basis.

###

Joel Berman Glass Studios is a world-renowned designer and manufacturer of glass art for the architecture and design community offering leading edge designs and collaboration possibilities to take any glass design project from concept to installation. From its design studio and manufacturing facilities located in Vancouver, BC, Canada Joel Berman Glass Studios offers kiln-cast and pressure-formed glass, and related complementary products, crafted to the highest standards and featuring designer textures, colors, hardware and design services, all delivered with unparalleled custom focus.
